

MORPHO

NATURAL SPRING WATER

The quality starts
at the source.

Give your guests more than water. Give them an
origin worth discovering.

NICOYA · COSTA RICA

A place. *A source. A signature.*

Our spring lies in Cóbano, on Costa Rica's Nicoya Peninsula. Forest, volcanic geology and a Pacific way of life give MORPHO an origin your guests can discover in every can.

THE NICOYA PENINSULA

A Pacific origin. *A different rhythm.*

On Costa Rica's Pacific coast, Nicoya brings together forest, ocean and communities with a strong connection to place. MORPHO carries this origin into the moments you create for your guests.

NICOYA & THE BLUE ZONES

A place known *for living well.*

Nicoya is one of the five regions identified in the original Blue Zones explorations, alongside Okinawa, Sardinia, Ikaria and Loma Linda. These places drew attention for the exceptional longevity observed in their communities.

Blue Zones · Nicoya

THE NICOYA WAY

More than years. *A way of life.*

Family ties, daily movement, traditional meals and a sense of purpose are central to Nicoya's story. The local "plan de vida" describes a reason to get up each morning. MORPHO takes inspiration from this connection to everyday life.

Blue Zones · Nicoya

PURITY IN MOTION

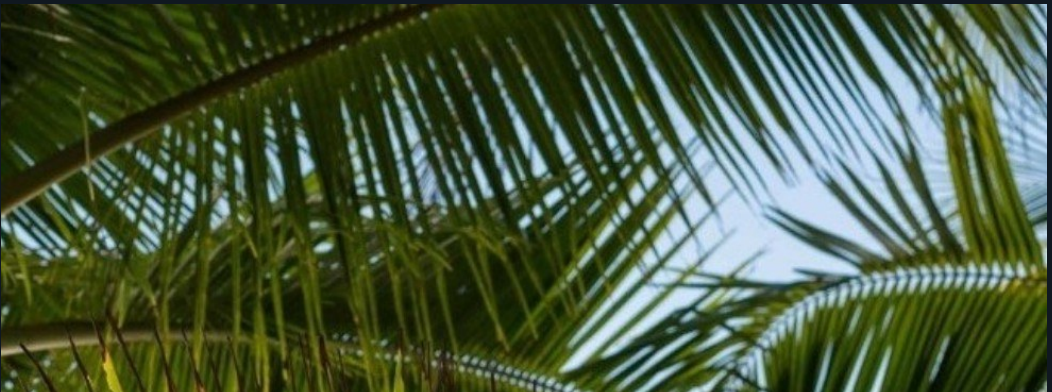

Bring that feeling *into the everyday.*

A walk outside. A meal shared. A pause to hydrate.
Our Costa Rican origin inspires a brand made for
movement and connection. It is an invitation to live
with intention, wherever your day takes you.

THE MORPHO RESERVE

Protected land. *A precious source.*

Our source lies within the protected Morpho Reserve in Costa Rica. Preserving the rainforest around the spring connects the quality of our water with care for the landscape that makes it possible.

NATURALLY FILTERED

Nature does *the essential work.*

Our spring water passes through volcanic rock, carrying naturally occurring minerals. Its character begins long before the can is opened.

Natural spring water. Naturally occurring minerals. No added minerals in MORPHO Still.

NATURAL CHARACTER

Minerals from nature. *Nothing to imitate.*

MORPHO Still's mineral profile comes from its journey through volcanic rock and mineral-rich earth. No minerals are added. Calcium, magnesium, potassium and silica make this water's origin tangible.

THE QUALITY OF THE WATER

The difference *is in the water.*

Look beyond the packaging. MORPHO Still carries a natural mineral composition, shaped by its source.

Ca

Calcium · 92.8 mg

Mg

Magnesium · 5.28 mg

K

Potassium · 5 mg

SiO₂

Silica · 18 mg

A natural composition. An origin you can explain.

Per 355 mL can · MORPHO press kit

A SMOOTH TASTE

Naturally balanced. *Clean in the finish.*

A smooth mouthfeel. A balanced taste. A clean finish. Its naturally alkaline pH is reported between 7 and 8. Serve it chilled and let your team discover its character.

EVERYDAY HYDRATION

A simple choice. *An essential benefit.*

Drinking water helps meet the body's daily fluid needs. MORPHO Still offers natural spring water without sugar or added minerals: an easy option for a meal, a working day or a moment of movement.

EFSA · Hydration

WATER & WELLBEING

Make hydration *a daily ritual.*

Good hydration contributes to normal physical and cognitive function and temperature regulation. These are benefits of water generally. MORPHO brings its source, mineral character and presentation to this everyday essential.

THE COLLECTION

Still today.
A sparkling future.

MORPHO Still is our natural spring water. MORPHO Sparkling is coming soon. One origin, two expressions to discover.

Still · Natural spring water

Sparkling · Coming soon

THE MORPHO FOUNDATION

From nature. *For its future.*

5% of profits go to The Morpho Foundation to protect the land around our spring and support Nicoya Peninsula communities. Rainforest habitat, biodiversity and the people of our origin are at the heart of this commitment.

CONSERVATION AT THE SOURCE

Protect the land. *Preserve the possibility.*

The Foundation aims to acquire land to expand the reserve around the source. Its ambition: safeguarding the living landscape and its long-term vitality for future generations.

A CHOICE WITH PURPOSE

Source. Body. *Planet.*

MORPHO's positioning connects the water we drink with the choices we make and the places we protect. For your establishment, it is a coherent story: a natural source, a distinctive product and a conservation mission.

YOUR GUEST EXPERIENCE

Good hospitality *lives in the details.*

The water you serve is part of the impression you leave. Choose an origin you can tell, a product you can present and a format your guests can take with them.

AT THE TABLE

Make the water *part of the occasion.*

A welcome drink. A place setting. A pause on the terrace. MORPHO gives these everyday moments a distinctive Costa Rican story.

FOR YOUR ESTABLISHMENT

Give your team *a story to serve.*

Give your team a clear introduction: natural spring water from Cóbano, Nicoya, in a 355 mL aluminum can. Discuss tastings, staff training and point-of-sale materials with us to bring the story to reception, the table and your next event.

WHY MORPHO

Three reasons *to take a closer look.*

01 / An authentic source

Natural spring water from Nicoya, Costa Rica.

02 / Natural mineral character

Minerals from the water's journey, with no added minerals in Still.

03 / A distinctive presentation

355 mL aluminum cans that bring the brand to your guest experience.

READY TO ORDER?

Your first order. *Made personal.*

Start with 12-can cases of MORPHO Still, 355 mL per can. For larger needs, pallets contain 2,400 cans (200 cases). Tell us your location and quantity; our team will confirm availability, delivery and sample options for your establishment.

Discuss an order

LET YOUR TEAM TASTE IT

Your next water. *Start with a taste.*

The best way to discover MORPHO is to experience it. Tell us about your establishment and ask our team about sample options and availability in your location.
